SCHOLARSHIPS/AWARDS

Academic Awards

- Western Washington University Admissions Achievement Award (\$4,000.00)
- Western Washington University Admissions Annual Scholarship (\$2,000.00)
- Arlan Norman Award, granted to graduate advisor Dr. Moushumi Sharmin (\$8,500.00)

Honors

- Graduated Magna Cum Laude from Western Washington University
- Qualified for the Dean’s List 6 quarters in a row at Central Washington University

RESEARCH EXPERIENCE

Graduate Research Assistant

Sept. 2023 – June 2025

Western Washington University

Bellingham, WA

- Worked as researcher in NEAT (Next-Generation Effective Affective Technology) Research Lab
- Recreated Heroku codebase in Microsoft Azure to fix Garmin smartwatch GPS and heart rate collection
- Wrote Python scripts to fully replace statistical analysis tools present on leading qualitative analysis software
- Created a data pipeline that merged citation files, geographical location data, and qualitative code spreadsheets

INDUSTRY EXPERIENCE

Member of Technical Staff Intern

June 2022 – Sept. 2022

VMware

Bellevue, WA

- Worked as part of the CloudHealth Secure State team
- Fixed a security flaw in an existing script by adding support for OAuth
- Implemented unit tests and a dashboard to monitor service health

Software Developer Intern

January 2023 – April 2023

Costco

Issaquah, WA

- Interned in the Enterprise Service Integration team
- Worked on transition from on-premise servers to Microsoft Azure

PROJECTS

Grapheme to Phoneme Transformer Model | *PyTorch, PyTorch Lightning* | [GitHub Link](#)

Winter 2025

- Built a transformer model for grapheme-to-phoneme conversion to study sequence-to-sequence models
- Designed custom tokenization and batching pipeline to enable reproducible ML experimentation
- Implemented encoder-decoder architecture using PyTorch

Habit Healer | *React Native, JavaScript, Firebase Realtime Database (NoSQL)* | [GitHub Link](#)

Winter 2024

- Designed a mobile app to support habit formation using human-centered design principles
- Implemented cross-device data synchronization for data persistence

SERVICE

Teaching Assistant at WWU

- CSCI 514 Research Methodology in Computer Science (Sp'25)
- CSCI 436/536 Technology for Social Good (Sp'25)
- CSCI 426/526 Human-Centered Technology Design (Fa'24)
- CSCI 497X/597X Privacy Enhancing Technologies (Sp'24)
- CSCI 345 Object Oriented Design (Sp'24, Wi'25)
- CSCI 241 Data Structures (Wi'24)
- CSCI 330 Database Systems (Fa'23)
- CSCI 145 Computer Programming and Linear Data Structures (Fa'23, Wi'25)

SKILLS

Languages: Python, Java, C, C++, Kotlin, MATLAB, React, React Native, SQL

Areas of Focus: Human-Computer Interaction and Machine Learning

Libraries: pandas, numpy, PyTorch, matplotlib, OpenCV

Fluent In: English, Slovak

CERTIFICATIONS

AZ-900: Microsoft Azure Fundamentals (Granted April 12, 2023)

PERSONAL INTERESTS

Mechanical Keyboards | *C, QMK, Soldering, 3D Printing* | [GitHub Link](#)

- I made a keyboard completely from scratch!
- Modeled a custom case that supports an acrylic window and 3D printed it
- Hand-wired and soldered switches, creating a row-column matrix layout without a PCB
- Used QMK firmware to flash microcontroller with custom keyboard layout
